

IS BUSINESS OWNERSHIP WORTH EXPLORING?

Your next career move doesn't have to be another job.

If you're an experienced professional navigating a career transition, business ownership - including franchising - may be another path worth exploring.

COULD OWNERSHIP BE RIGHT FOR YOU?

Consider exploring it if you're asking:

- Do I really want another corporate job?
- Am I ready for more control over my career?
- Could I use my leadership experience to run a business?
- Do I want to build an asset, not just earn another paycheck?
- After a layoff or restructuring, should I consider a different path?

WHY CONSIDER FRANCHISING?

Franchising can offer business ownership with an established model, systems, training, brand resources and ongoing support.

You don't need to have a business idea or start from scratch. The goal is to determine whether there is a model that fits **your experience, goals, finances and desired lifestyle**.

The question isn't: 'What's the best franchise?'

It's: 'Is there a business that fits me?'
